SAM Status: Registration in Progress

---

## Core Competencies

- Website development, redesign, and performance optimization
  - Bug fixing and maintenance for existing systems
  - API integrations and backend development
  - Mobile-first, accessible UI/UX improvements
  - Modernization of legacy web applications
- 

## Differentiators

- Fast turnaround for small-to-medium IT needs
  - Direct access to a senior developer (no layers, no delays)
  - Transparent pricing and communication
  - Local Florida-based support for quick collaboration
  - Specializing in fast fixes and modernization of existing systems
- 

## Past Performance

- Developed and maintained high-traffic web applications, improving performance and user experience through A/B testing and optimization strategies
- Built custom APIs and reusable front-end components to support scalable web platforms
- Designed and implemented data ingestion systems to process and display large datasets from external vendors
- Developed internal tools and CRM systems to streamline workflows and enable non-technical users to manage web content

- Contributed to U.S. Navy training simulation systems to improve training efficiency and reduce operational costs
  - Built and deployed modern web applications using frameworks such as React, Angular, and Node.js
- 

## **Business Classification**

- Small Business (Pending SAM confirmation)
  - Hispanic-Owned Business (Self-Identified)
- 

## **NAICS Codes**

- 541511 – Custom Computer Programming Services
  - 541512 – Computer Systems Design Services
  - 541519 – Other Computer Related Services
- 

## **Certifications & IDs**

- UEI: Pending
- CAGE Code: Pending
